

To the Eastern Plumas Rural Fire Protection Districts Board of Directors:

I would like to help the community and our area to be more fire ready. We live in an environment that has fire in its natural history and our natural vegetation has evolved to survive fire. Our homes do not survive fire so well.

Being ready for home protection is an important part of our mission here in Eastern Plumas. A long list of duties and responsibilities comes to mind when you think about what our departments do out in the field, this is a way in which I can do my part to assist!

Thank you for your consideration,
